

## St. Roses Wheel Nuts Event Sunday 5<sup>th</sup> May

The Wheel Nuts Event is held to raise money for St. Roses, which provides education, therapy and care for day and residential children and young people with physical disabilities and/or sensory, communication and learning difficulties. This is their 15<sup>th</sup> annual show and it has got bigger and better every year.

We had a full turnout of 14 cars for the event this year and a bit of 'Caper' style marshalling was required by Laurence to fit everyone into our usual area. One of our party had been invited by Rob & Myn and joined up shortly after we were set up – a big welcome to Richard Evans!

We eventually got the Gazebo erected after a bit of head scratching by Trev, Laurence & Jane. You would think we ought to be able to

do this like clockwork given the number of times we have done it, but we're convinced those poles change shape every time we get them out of the bag!

The weather was kind to us this year and stayed dry all day, although there was a marked contrast in temperature whenever the sun came out or went in.

There was a huge turnout of cars of every marque imaginable all looking at their very best. There were plenty of spectators as well and we had a busy time chatting to interested people. In addition, we gave out several more membership forms and also Caper entry forms.

The day seemed to go past very quickly and before too long it was time to strike camp, dismantle the Gazebo and head for home after a very enjoyable day.
