

South Cerney Vintage & Country Extravaganza Sunday 4th August 2019

15 cars attended the extravaganza this year.

Picnic Time

The event gets bigger every year and this year was no exception, the airfield was filled with every type of transport imaginable and the traction engines in particular seemed to be far more prolific this year.

There were the usual trade stands as well and throughout the day many members came back to show off the little gems and bargains, they had discovered.

On arrival, it took a little while to find our allocated position, which wasn't our usual spot. This meant our carefully drawn up 'Red Arrows' car formation had to be hastily rewritten. However, after a little discussion, we worked out where to put everything and soon the gazebo was being slickly erected, and cars positioned. Paul and Margaret's gazebo took a little longer to erect due to some imbibing the night before apparently!

Time for Tea

Time to check the eyelids

The weather was kind to us all day, but we knew rain was expected later. When we saw a dark cloud on the horizon in the late afternoon, it was decided to go while we and the gazebos were still dry. We therefore dismantled the gazebos and packed them away as slickly as they were erected. We're getting good at this operation now!

Everyone left by about 5pm and we had a few spots of rain whilst waiting in the queue to get onto the main road and through Cirencester. However, that was all we had and it turned sunny again by the time we got home.

Thanks to Trev for once again bringing the well-equipped trailer containing all the paraphernalia required for the gazebo and flags. Also, thanks to Paul & Margaret for bringing their gazebo – Paul, you really must mark those poles!
